

### Remarks

Claims 1 through 9 are presented for examination in this application upon entry of this Preliminary Amendment.

The specification has been amended to appropriately claim priority to an international application. The claims have been amended to conform to U.S. practice. Specifically, the claims have been amended to remove multiple dependencies, to provide proper antecedent basis to all claim elements, and to correct grammatical errors. These claim amendments merely make explicit what had been implicit in the claims, and should not affect the scope of equivalents to which the claims are entitled.

In view of the above, Applicant respectfully submits that the present application is in condition for examination. Applicant respectfully requests favorable consideration and passage of this application to allowance.

Respectfully submitted,

Charles N.J. Ruggiero
